*NSA = Nutrition Service and Administrative costs. Approximately two-thirds of total costs are used to provide nutrition education, breastfeeding promotion and support, and linkages to health and other client services (e.g., immunization; drug, alcohol and tobacco education; referrals to family and child health social programs). The remaining third is used for traditional management functions.							
The annual average food cost is the benefit per month.							
<b>FY 2014 data are preliminary; all numbers are subject to revision.</b>
